BUILDING PRODUCTS

Natural Jute Hessian

Specialists in Supply Solutions

EBP Hessian has a wide range of uses in construction, agriculture & commercial sectors. EBP Hessian is woven from high grade jute fibre to provide a strong insulating fabric that is a cost effective multi-purpose solution. The fact that it's biodegradable also increases the appeal as an environmentally friendly option when compared to other products.

TYPICAL USES:

- Frost/Cold Weather Protection in construction (OPC, brickwork, mortar & concrete)
- Support Curing of Construction Materials (e.g. Concrete, brickwork & mortar)
- Biodegradable Erosion Control
- Agricultural & garden use e.g. Biodegradable weed control, seed protection & frost protection & planter lining
- Low-cost packing material
- Low-cost acoustic absorption material
- Various construction, commercial, DIY & craft uses

TECHNICAL CHARACTERISTICS:

PRODUCT:	6 oz. Woven Hessian Cloth (205g/m ²)
CONSTITUENTS:	The fabric is 100% natural jute.
WEIGHT:	205 gsm (roll weight approx. 12.92kg)
APPEARANCE:	Woven fabric (Brown)
ROLL DIMENSIONS:	46m x 1.37m flat roll
BIODEGRADES:	6 - 12 months
